

PRODUCT DESCRIPTION

Green-off Cleaner is a high performance cleaner which removes organic and microbiological soiling from porous building materials. The surfaces can then be simply rinsed with water without using a pressure washer.

Green-off Cleaner contains no potassium hydroxide, hydrochloric or phosphoric acid, quaternary ammonium or solvents.

It does not alter the colour of the substrate. Always test on a small, discrete patch before using on the full area.

Green-off Cleaner is recommended for the treatment of paths, drives and patios. It is also very efficient in cleaning lime render surfaces.

For lasting results, we recommend the use of the appropriate sealer from the Pavetuf range.

CHARACTERISTICS

Green-off Cleaner does not damage the treated material surface, unlike acidic cleaning products.

Fast acting.

Easy to use.

High penetrating power.

Waterborne product.

Contains no acid.

Brightens most surfaces.

Non VOC (Volatile Organic Compound).

PACKAGING

5 litre container.

TECHNICAL DATA

Physical State at 20°C	Liquid
Appearance	Amber
Odour	Characteristic
Ph	>11
Boiling Point	100 °C
VOC	0g/L
Density	1.08kg/L
Solubility in water	fully soluble
Flash Point	N/A

COVERAGE PER LITRE

The figures indicated are approximate and should only be used as a general guideline:

1 Litre = 3 to 7m².

STORAGE

24 months from the date of manufacture in original unopened container stored in a clean, dry place at 10-25°C.

Keep away from extreme cold, do not store in conditions below 5 °C.

CLEANING EQUIPMENT

Clean tools and equipment immediately after use with water.

APPLICATION

Shake the container well before use.

Do not dilute or mix with other products.

Always carry out a test first to ensure the finished result is acceptable.

If there is a thick layer of fungi or moss, firstly use a broom to brush off as much as possible before applying.

Apply in dry weather on a damp surface.

Leave ideally overnight (which is the preferred method) or at least for a minimum of 60 minutes. Allow for more time in cold weather (<10 °C).

Rinse with water / jet wash and use a broom to brush away.

For more information, please visit www.pavetuf.com

RECOMMENDATIONS

Do not apply on metallic or impermeable materials.

Do not allow product to contact plants, shrubs or grass.

Do not apply during rain, frost or when surface and air temp is <5 °C & >30 °C.

Do not dilute or mix with any other product.

Never proceed without carrying out a test patch to ensure surface compatibility.

HEALTH AND SAFETY

Do not mix with acids or other cleaning products, may release dangerous gases (chlorine).

Hazard statements:

Danger

Contact with acids liberates toxic gas.

Causes severe skin burns and eye damage.

Very toxic to aquatic life.

Keep out of reach of children.

Do not breathe fumes/gas/mist/vapours/spray.

Wash hands thoroughly after handling.

Avoid release to the environment.

Wear protective gloves/protective clothing/eye protection/face protection.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

IF SWALLOWED: Immediately call a POISON CENTER/doctor/physician.

IF ON SKIN: Gently wash with plenty of soap and water.

If skin irritation or rash occurs: Get medical advice/attention.

IF INHALED: Remove person to fresh air and keep comfortable for breathing.

Store in a well-ventilated place. Keep cool.

Contains SODIUM HYPOCHLORITE
CAS number 7681-52-
